Our COVID-19 Infection Prevention and Response Action Plan follows all guidance from local, state, and federal health officials and is in place to protect the well-being of the Veterans Home members and staff.

- The plan includes the following:
- Utilizing appropriate personal protective equipment;
- Screening and monitoring of members, staff, and visitors for symptoms;
- Testing members and staff based on federal and state guidance; which is currently twice per week for us,
- Taking environmental safety precautions, such as disinfecting high-touch surfaces;
- Adhering to safe visitation procedures; which consists of virtual and window visits, and
- Ensuring safe congregate dining and group activities.

See your email from Tuesday with the full details of our plan.
